

Year 4 Optional Homework Tasks

Use your knowledge of teeth to design and create an information poster, teaching other children how to look after their teeth and why it is important. Think about the important messages that you want to give about oral hygiene. Can you create a catchy slogan? You might like to include an idiom after learning about them in class.

Think about what you ate yesterday. Write a food diary, recording what you ate, whether the snack or meal was healthy or unhealthy and explain why.

Research and record the functions of the oesophagus, stomach, small intestine and large intestine.

Plan and prepare a healthy snack. Take pictures and either post on Tapestry or bring to school.

One way in which a person can stay healthy is to take care of their personal hygiene. Write a list of actions that people can do to keep themselves clean and preserve health. Find out why the aspects of personal hygiene that you have listed are important.

Make a model of the digestive system. You could use anything you have at home; including recyclable plastic and cardboard tubes.

Topic: Burps, Bottoms and Bile
